

A

Study 1A

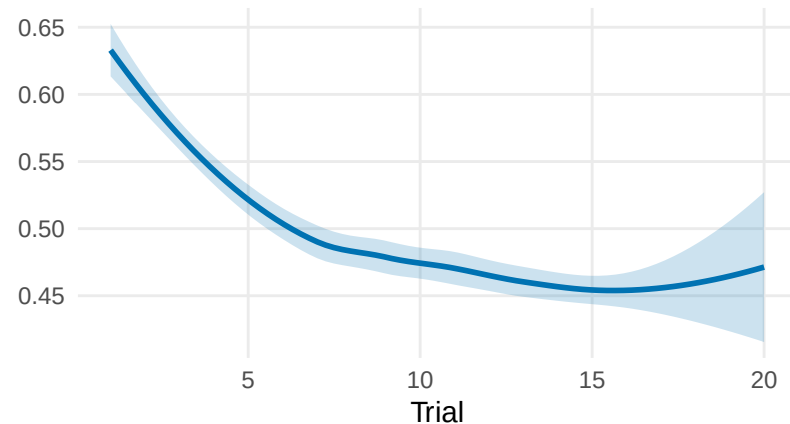

Online | N = 181 | Single staircase

B

Study 2

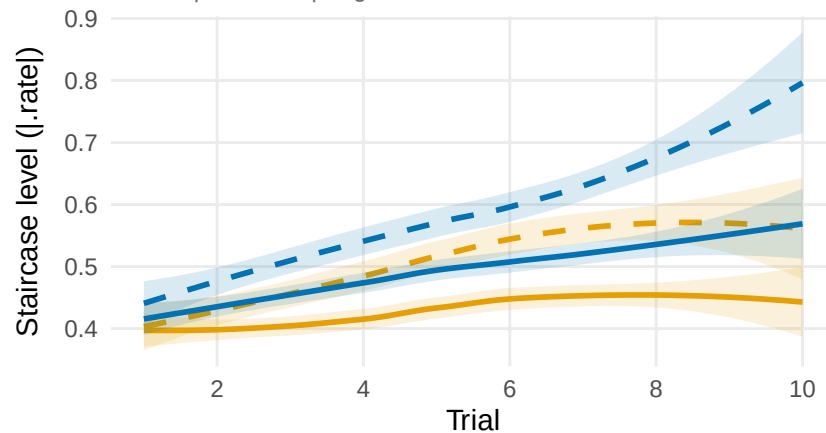

Online | N = 166 | Single staircase

C

Study 4

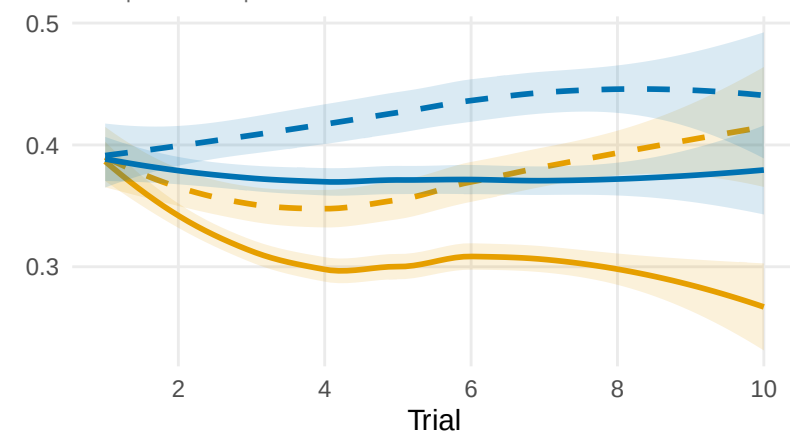

Online | N = 131 | High / Low salience × Faster / Slower

D

Study 5

Lab | N = 206 | Breath condition

Salience High salience Low salience **Direction** Acceleration Deceleration

Studies 4–5: Quest staircase level (threshold estimate per trial), averaged across participants (± 1 SE).

Studies 1A–2: |Change| (abs. magnitude of signed change).

Studies 4–5: High salience (orange) and Low salience (blue); Acceleration (solid) and Deceleration (dashed).
